Well Attested Cure of Catarrh.

DR. A. P. LIGHTHILL—DEAR SIR:—Your treatment in the cure of my Catarrh has had the desired effect, and resulted in permanent good to me, although my case has frequently been pronounced incurable, and I had exhausted all other modes of treatment, without the least benefit. My case was frequently hand troublesome, that by giving a new of the symptoms the value of your treatment can be more readily estimated. For years I had been afflicted with a constant cold in the head, obstructing my breathing so as to ring sleep; latterly the discharges became solidified and impacted in my nose to such an extent that it required the greatest exertion to expel them. Sometimes these harsened lumps would get in my throat causing me to hawk and scrape even by the hour to relieve myself. My breath was offensive, my memory became impaired. Dizziness and light headiness made their appearance, and of late symptoms of paralysis stepped in, and when I placed myself under your care one side of my face was badly affected by this dread disease. My general health suffered alike, there was a constant tired, drowsy and debinitated feeling, with no energy to move or act; I felt a stired on rising in the morning as I did on going to my bed, my appetite was capricious and my disposition incress. In that condition I placed myself under your care, and am happy to state that all those disagreeable and dangerous symptoms by the beautity of good health.

By giving this publicity you will benefit others similarly affected and oblige me. Frookville, Jeperson county.

The proposition also includes a sufficient quantity of stone for the building, and this is no inconsiderable item. The stone found in the immediate vicinity of Grafton, is of the very best quality for building purposes, so very intended, that considerable quantities have been purchased by the State, and shipped to Moundsville, for use in erecting the Penitentiary. From these considerations then, I think the interests of a vast insjority of the people of The House proceeded to the consider-The House proceeded to the consideration of the special order it being, House Bill No. 4—"permanently, locating the seat of Government of this State."

The great thoroughfare of West Virginia for the present and for a series of years to come, is the Bal-timore & Ohio Railroad, and if it does timore & Ohio Railroad, and if it does not touch the geographical centre or the centre of population, I think it is quite obvious that the available centre of the State—that is, the point most conveniently reached by a large majority of the State, is on the line of that road, and that point is Grafton.

Now, take the map of our State and note the counties from which any portion of the inhabitants, to reach any

note the counties from which any portion of the inhabitants, to reach any available point south of the railroad would naturally and ordinarily travel on that road to it, and I think the list will embrace the following counties: Jefferson, Berkeley, Morgan, Hampshire, Grant, Hardy, Pendleton, Tucker, Barbour, Preston, Monongalia, Marion, Taylor, Harrison, Wetzel, Tyler, Doddridge, Ritchie, Pleasants, Wood, Marshall, Ohio, Brooke, Hancock, Wirt, Jackson, Roane, Mason, Putnan, Kanawha, Cabell, Lincoln, Wayne, Logan and Boone, Here we have thirty-five counties out of fifty-three—a majority of ties out of fifty-three—a majority of eight counties, and, in all, having a rep-resentation on this floor of forty-one members out of fifty-six—a majority of The Senate bill to require applicants for license to retail spirituous liquors to give notice, was re-committed to the Judiciary Committee.

At 12 o'clock, meridian, the Senate proceeded to the hall of the House of the light spiritual themselves of that thoroughdiv avail themselves of that thorough fare for a portion of the journey; so that it is clearthat Grafton is more con-venient to them than any other point south of the railroad, whatever the distance may be. That is to say, if the members in the House of Delegates are members in the House of Delegates are properly apportioned to the population, forty-one people who have occasion to go to the seat of government, would save a stage journey south of the railroad by having the Capital on it, while less than half that number would save the same distance by having it south of the road. the same distance by having it south of the road! Look at your map—see the accessibility of the point;—the people from the extreme eastern portion of the State have but to step aboard the train and a few hours ride lands them at their journey's end; so with those of the western portion, a pleasant ride of four or five hours brings them to the Capital, while those of the south-west have but in the House, as delegate from the 6th belegate District.

Everybody worth noticing was invited; so it is easy to guess what a crowd the society of Washington furnished. He had an orchestra of music and a conservatory of flowers for the occasion; so that two senses were attracted and, it is to be

sense\*were attracted and, it is to be presumed, in some instances captivated at the same time. Trees were temporarily planted on the staircase, an idea not altogether new, but always seemingly original. The supper table looked like a miniature model of Pekin, with confectionary of all kinds and colors framed into temples, towers, minarets and pagodas. Altogether Zach Chandler carried off the palm as far as display was concerned. He was immensely patronized, not alone because people patropized, not alone because people of ice and the timbers which were swep down the stream for a great distance monly siriking reception, but also from the fact that he is in a great measure away. C. W. HALLAK,

From Rev. Joseph II. Kennard, D. D. Pastor of the Tenth Baptist Church, Phila.

In some cases it may fail; but usually, I doubt not, it will be very beneficial to those who suffer from the above causes.
